1. Overall Summary (Recurring Revenue and Recurring Profit)

Recurring revenue

54,995 Million JPY

+10.6 % YoY (+5,288 mn JPY)

Of which, underwriting revenue: **+9.8%** YoY (+JPY 4,241 mn)

before amortization of goodwill Recurring profit

2,422 Million JPY

-39.1% YoY (-JPY 1,577 mn)

Recurring profit

2,228 Million JPY

-41.2% YoY (-JPY 1,564 mn)

Steadily increased revenue through strong acquisition of new policies and expansion of peripheral businesses, while ordinary profit declined due to costs associated with the transfer of policies from another insurer and business investments; however, performance remains in line with plan.

■ Recurring revenue

- The number of new pet insurance policies was **206,000**, while the number of policies in force reached **1,374,000** (+9.1%), showing **further growth**.
- Outside the insurance business, other recurring revenue **grew** to JPY 6,056 million (+12.3%).
- Investment revenue was JPY 1,190 million (+47.6%), **exceeding the previous year** through agile investment management under uncertain market conditions.

■ Recurring profit

- Although ordinary profit **declined** due to AXA Direct policy transfer costs and investments in JARVIS Tokyo, **results are progressing as planned**.

3. Recurring Expenses and Profit Indicators

* Operating and general administrative expenses ratio, recurring profit ratio (consolidated)

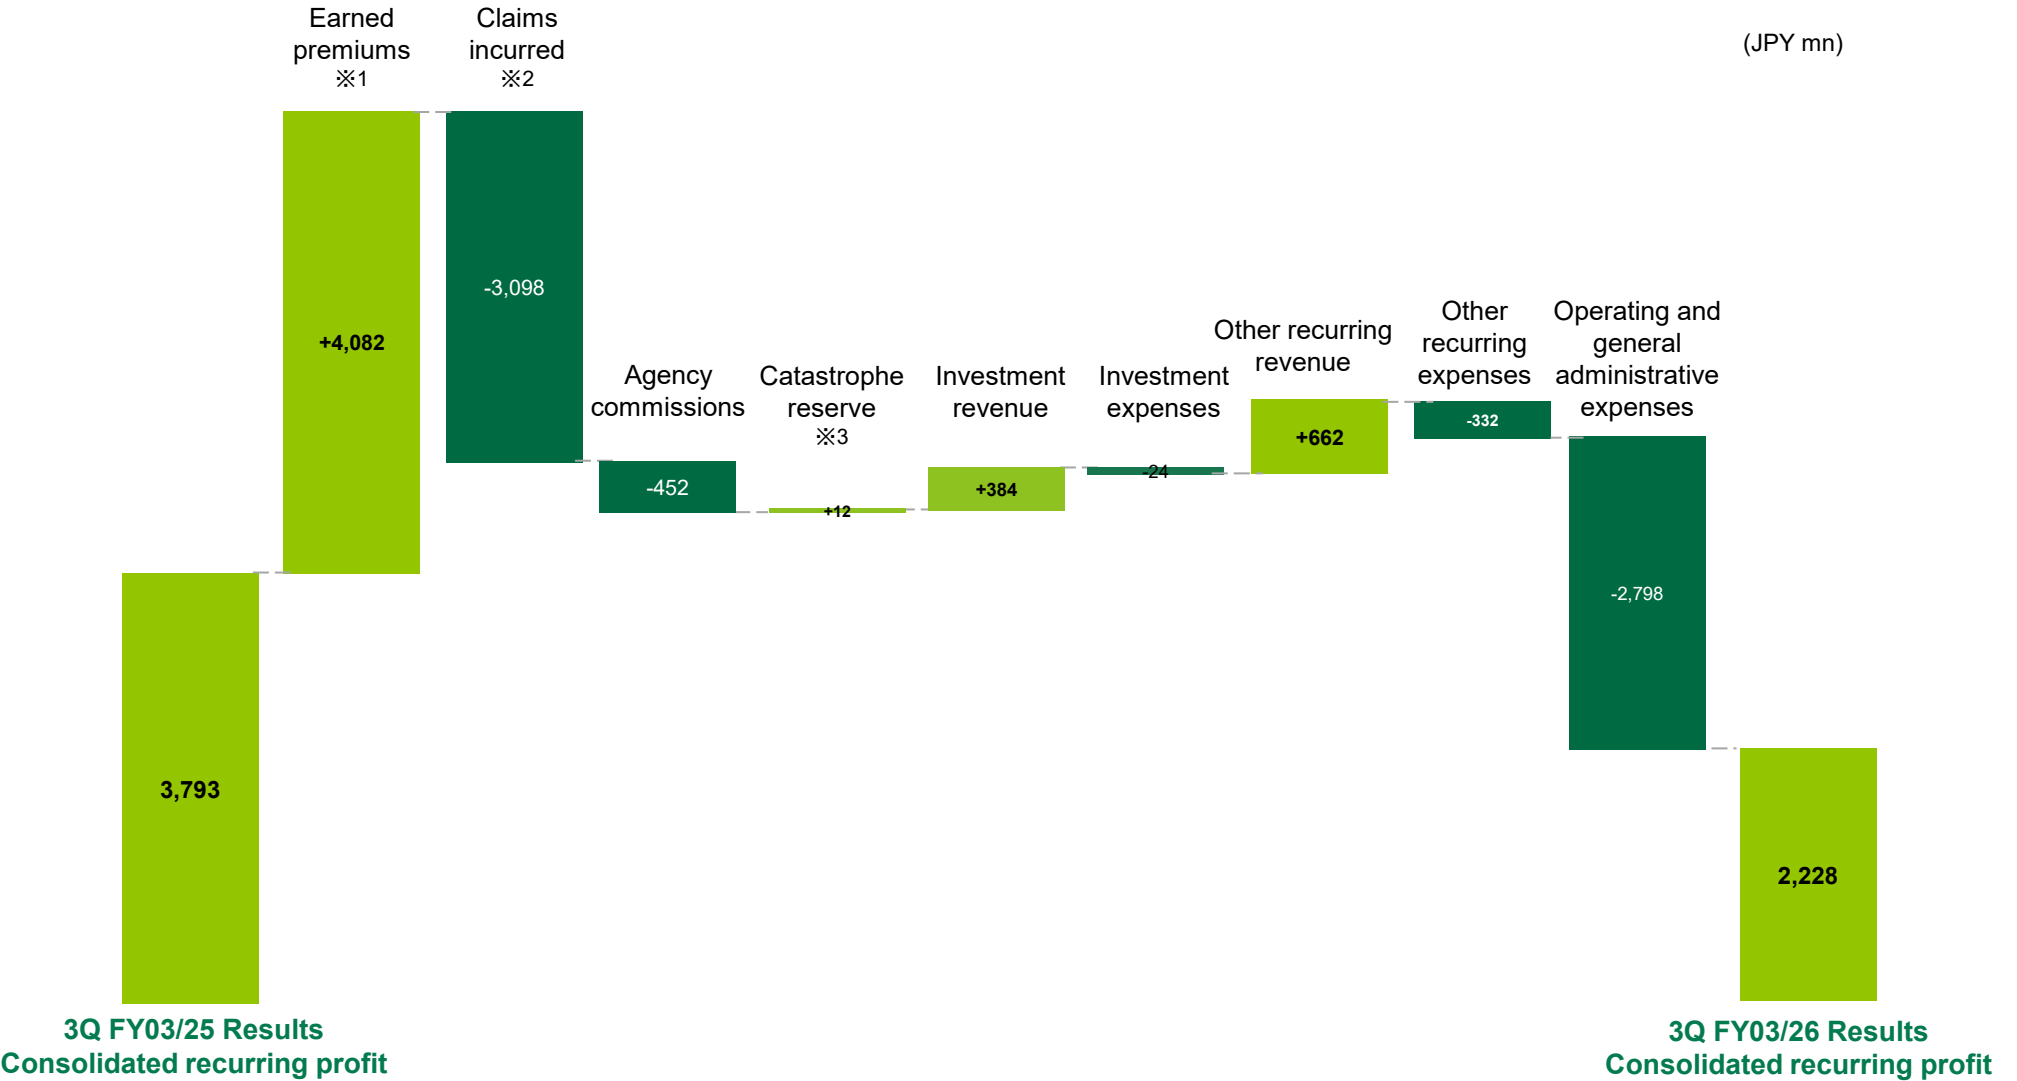

*Refer to the appendix for management indicators for Anicom Insurance on a non-consolidated basis (loss ratio, expense ratio, number of policies)

4. Factors behind Changes in Recurring Profit (YoY Analysis)

Note 1) Earned premiums = Underwriting revenue - Provision for normal underwriting reserves (Unearned premiums)
Note 2) Claims incurred = Net claims paid + Provision for reserve for outstanding losses and claims
Note 3) Catastrophe reserve = Provision for catastrophe reserve losses and claims + Reversal of catastrophe reserve reimbursements

4. Factors behind Changes in Recurring Profit (3Q FY03/26 Results and 4Q Estimate)

Quarterly recurring profit trend

(1) Main factors compared with 3Q of the previous fiscal year

Ordinary profit declined due to an increase in the loss ratio resulting from inflationary pressures, the incurrence of AXA Direct policy transfer fees, and expenses associated with the opening of JARVIS Tokyo.

(2) Outlook compared with 4Q of the previous fiscal year

Despite a rise in the loss ratio, the absence of AXA Direct policy transfer fees, together with cost reductions through improved operational efficiency and asset management income exceeding plan, is expected to support recurring profit.

(3) FY03/26 outlook

Although profit is lower compared with 3Q of the previous fiscal year, profit for 4Q of the current fiscal year is expected to be at the same level as 4Q of the previous fiscal year. Accordingly, the full-year plan of ¥3.3 billion in recurring profit remains achievable.

Downstream

Strengthening Breeding Support

We have been actively advancing various initiatives, taking into account the amended Act on Welfare and Management of Animals and other developments.

Strengthening the Matching Service Business

“Minna no Breeder” and “Minna no Koneko Breeder”
Social media activities are being strengthened as a priority
Instagram: Followers doubled to 20,000 over the past year
TikTok: Operations launched in October

Matching Service Business results for 3Q FY03/25

▪ Net sales:	JPY 1,710 million (Previous year: JPY 1,663 million)
▪ Recurring profit:	JPY 106 million (Previous year: JPY 220 million)

Note: Net sales are external sales; recurring profit is after goodwill amortization.

Despite transaction volumes progressing as planned, profit declined year on year due to increased web advertising costs resulting from measures against competitors and a slight decrease in average transaction value.

Health checkups + expansion of oral and intestinal care products

Held tasting sessions and seminars for various care products through Doubutsu Kenkatsu at locations nationwide.

Health Innovation Business results for 3Q FY03/25

▪ Net sales:	JPY 415 million (Previous year: JPY 248 million)
▪ Recurring profit:	JPY -246 million (Previous year: JPY -121 million)

Note: Net sales are external sales.

Despite delays in the launch of new products, revenue expanded. The Company continues to focus on acquiring repeat purchasing customers through face-to-face promotional activities.

Business related to animal healthcare treatments

(from prevention to general practice and advanced medical care)

JARVIS Animal Medical Center Tokyo
The clinical system providing advanced veterinary care is now fully operational.

Animal Hospital Business results for 3Q FY03/25

▪ Net sales:	JPY 1,812 million (Previous year: JPY 1,683 million)
▪ Recurring profit:	JPY -411 million (Previous year: JPY 39 million)

Note: Net sales are external sales; recurring profit is after goodwill amortization.

Revenue increased following the opening of JARVIS Tokyo, while expenses rose due to depreciation and other factors.

2. Progress of Priority Measures (Businesses Generating Synergies 2)

● Key KPIs for the Animal Hospital Business

JARVIS Animal Medical Center Tokyo, which opened in October 2025, has been performing well. By allocating additional organizational resources, the Company expects a significant uplift in revenue.

*1 Calculated based on a full-year revenue forecast of JPY 2,500 million

*2 Calculated based on a full-year forecast of 225,000 consultations

2. Progress of Priority Measures (Businesses Generating Synergies 2)

JARVIS Animal Medical Center Tokyo

Demand for advanced medical care remains solid. As of the end of the third quarter, progress reached **174% of plan**.

Further growth is expected through the expansion of affiliated partner hospitals.

2. Progress of Priority Measures (Businesses Generating Synergies 2)

● Key KPIs for the Health Innovation Business

While sales of each product line have been growing steadily, performance remains behind plan. From the end of December 2025, the Company began selling its staple pet food, “7Days Food (Minna no Gohan),” and expects this to drive future revenue growth.

*2 Currently discontinued and relaunched under the name “CARE PUREE.”

3. Topics (1): Enhancing the Brand Value of “Doubutsu Kenpo” (Animal Health Insurance)

Pet insurance sales launched jointly with Sony Assurance Inc.

From November, pet insurance sales were launched jointly with Sony Assurance Inc., with the aim of increasing the penetration rate of pet insurance.

Publication of the epidemiological data compendium “White Paper on Household Animals”

In addition to epidemiological data, the publication features initiatives such as research on oral and gut microbiota, studies on domestic cats, and the opening of an advanced medical care center.

Service details

Sony Assurance serves as the lead insurer, while Anicom Insurance acts as a non-lead insurer. Sony Assurance provides insurance product information to customers, and Anicom Insurance operates as a business agent and administrative service provider.

Our Vision Behind the White Paper on Household Animals

While it is not possible for animals and humans to communicate through words, we aim to deepen understanding and protect their health through data. This aspiration drives the creation of this white paper.

JARVIS Animal Medical Center Tokyo Nighttime emergency care

From November, nighttime emergency medical services were launched, aiming to provide a medical care system that supports animals and their owners at any time of day or night.

■ Nighttime emergency care

Sudden changes in an animal's condition, such as accidental ingestion of foreign objects, can occur at any time. As animals do not have access to emergency ambulance services like humans, a medical care system that can be relied upon even at night plays a vital role in providing peace of mind.

3. Topics (4): Initiatives in Social Contribution Activities

Featured in an activity report by IFAW (International Fund for Animal Welfare)

As part of disaster-response support for animals, the Company conducted fundraising activities for IFAW. These initiatives were recognized and featured in IFAW's newsletter.

Donor Spotlight

Anicom Holdings, Inc.

Anicom believes this outstanding response reflects the deep compassion of their customer base, who want to support both people and animals affected by conflicts like this. During a disaster, many people choose to stay behind with their pets instead of evacuating, even when doing so puts their own lives at risk. This reflects the growing importance of companion animals in people's lives and Anicom's motivation to support our disaster response and resiliency projects.

In addition to Ukraine, Anicom has generously provided support towards our rescue and recovery efforts following natural disasters in Turkey, Syria, Morocco, Libya, Taiwan, and Los Angeles.

Anicom tells us they have received numerous warm messages when updates about their gift are shared with their stakeholders including, "When I want to do something for animals in times of crisis, I trust Anicom."

IFAW is extraordinarily grateful for the support of Anicom and the countless people who have thoughtfully opened their hearts to touch thousands of animals across the world.

For Anicom Holdings, a pet-sector group best known for pet insurance, "kindness towards animals knows no borders." Based in Tokyo, Japan, Anicom has generously granted IFAW funds to help animals and people recover from natural and human-caused disasters.

IFAW and Anicom first connected in 2022 to bring relief to animals suffering from the war in Ukraine. Approximately 10,000 people rushed to donate to Anicom's Ukraine Pet Rescue Fund that helped support veterinary medical care for more than 17,000 pets in Ukraine.

Note 2: The expense ratio represents the "expense ratio based on earned premiums" (insurance business expenses / earned premiums).

(Reference) Impact of insurance accounting on recurring profits/losses

1. Impact of growth in premium on recurring profits/losses (Based on Japanese non-life insurance accounting)

Generally, the growth in premium contributes to an increase in recurring revenue, but Japanese non-life insurance business laws require non-life insurance companies to carry any unearned premium portion over to the coming fiscal year as an underwriting reserve (unearned premium). Conversely, expenses such as claims incurred, agency commissions, operating and general administrative expenses are required to be accounted to that fiscal year. There is, therefore, a negative impact on recurring profits/losses when above expenses exceed earned premium in current fiscal year even if sales revenue rise due to growth in premium.

2. Impact of catastrophe reserves on recurring profits/losses (Based on Japanese non-life insurance accounting)

- Every non-life insurance company must accumulate catastrophe reserves each fiscal year in order to prepare for natural disasters
- The reserve is liquidated (decreases expenses) when the net loss ratio* exceeds 50%. *Net claims paid ÷ Net premiums written
